[Portfolio Website](#) | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Full Stack Developer skilled in MERN stack, API design, and cloud deployment. Built and shipped multiple startup-level applications solving payment fraud, resume bias, artist unemployment, and healthcare challenges. Strong in debugging, scalable architecture, AI/ML integration, and problem-solving with a product mindset and rapid learning ability.

SKILLS

Programming: JavaScript, Java, Python, SQL

Frameworks / Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, Tailwind CSS

Tools: Git, GitHub, Docker, Firebase, Vercel, Render, Postman, Vite

Cloud / DevOps: AWS (EC2, S3 Basics), GitHub Actions (CI/CD), Deployment, Linux Basics

Core Competencies: REST APIs, Git Version Control, Deployment, Product Thinking, Debugging, Performance Optimization

Soft Skills: Problem Solving, Leadership, Ownership, Communication, Creative Strategy

EXPERIENCE

Cultural Secretary

Advitiya Cultural Society, IMSEC

Jan 2025 – Present

Ghaziabad, India

- Led a 50+ member cultural team as Cultural Secretary of Advitiya Cultural Society, reporting to the college administration
- Organized and managed 15+ large-scale campus events including technical fests, cultural programs, and inter-college competitions
- Coordinated across 5 clubs (dance, music, drama, photography, fine arts) ensuring smooth event execution and resource allocation
- Developed strategic planning, team leadership, and cross-functional coordination skills while managing budgets and timelines

Intern

ShapeMySkill by Ducat

Jul 2025 – Aug 2025

Noida, India

- Developed full-stack applications integrating React, Node.js, MongoDB and GenAI APIs
- Enhanced deployment debugging efficiency by 35% through optimized build workflows
- Automated test cycles and resolved API integration bottlenecks
- Contributed to HRMS modules including role-based panels and attendance logic

Intern

Skillrisers Infotech Pvt. Ltd.

Jan 2024 – Feb 2024

Remote

- Supported client project documentation, requirement gathering and market mapping
- Assisted in creating structured reporting dashboards used by internal teams
- Collaborated on documentation, UI workflows, and internal product testing

Freelancer

Independent Contractor

Jan 2022 – Aug 2022

Remote

- Delivered paid client projects under tight deadlines, managing requirements independently
- Cultivated early client-handling and project delivery discipline before college
- Completed multiple paid branding, design, and web assignments

EDUCATION

IMS Engineering College

Bachelor of Technology in Computer Science, CGPA: 7.41/10.0

Ghaziabad, India

2022 – Present

- Relevant Coursework: Data Structures & Algorithms, DBMS, OS, Web Development

PROJECTS

BHARAT-Freelance | Freelance Marketplace Startup | [LIVE](#) | [GitHub](#) | MERN Stack

- Architected full-stack marketplace enabling secure client-freelancer interaction
- Eliminated fraud using escrow-based payment pipeline with Razorpay integration
- Reduced resume bias using ATS-based candidate ranking engine
- Benchmarked deployment stack to sustain 100+ daily requests with optimized performance
- Business model projected to scale 5–10L/month in transactions with robust workflows

HairCare-AI | Root Cause Diagnosis Platform | [LIVE](#) | [GitHub](#) | MERN + Python

- AI-powered system analyzing hair issues with detailed diagnostic reports and personalized results
- Designed analysis workflow, UI dashboard, and frontend logic with seamless user experience
- Implemented modular architecture ready for ML model integration and scalability
- Tech Stack: React.js, Node.js, MongoDB, Python (ML-ready backend)

LuminX | Low Light Image Enhancement Platform | [GitHub](#) | React + Tailwind

- Premium React UI with authentication, drag-drop workflow, and real-time image enhancement preview
- Modular architecture ready for ML model integration with clean separation of concerns
- Engineered responsive design with smooth animations and intuitive user interface
- Tech Stack: React.js, Tailwind CSS, Vite, modern frontend tooling

U-Craft | Custom Artist Marketplace Platform | [GitHub](#) | MERN Stack

- Designed e-commerce model enabling personalized art ordering from independent creators
- Conducted validation interviews with 30+ artists identifying unemployment gaps
- Developed reusable MERN architecture enabling multi-city expansion and scalability
- Premium dark UI featuring smooth product gallery and animated gradients

HR Management System | Internship Project | [GitHub](#) | MERN + JWT

- Engineered comprehensive modules for attendance tracking, employee management and leave workflows
- Created role-based dashboard with secure JWT authentication and authorization
- Implemented modular backend structure using React.js, Node.js and MongoDB

CERTIFICATIONS

AI for Business Essentials – HP LIFE (Issued Jan 2026)

Docker and DevOps Fundamentals – Scaler (Issued Dec 2025)

REACT Masterclass – Scaler (Issued Dec 2025)

Full Stack Web Development – Udemy

Data Structures & Algorithms in Java (150+ Leetcode Problems) – Udemy

React Bootcamp – LetsUpgrade

JavaScript & SQL Bootcamp – LetsUpgrade

Cultural Secretary – Advitiya Cultural Society

ACHIEVEMENTS

Winner – Ideathon 2025 (Melange Tech Fest) for innovative tech-driven solution

Cultural Secretary – Led 50+ members managing campus events and 5 clubs at IMSEC Ghaziabad

Top 10 Finalist – National Hackathon @ COER Roorkee (among 105 teams)

Hackathon Participant – GL Bajaj Institute of Technology & Management

Early Freelancer – Completed paid client projects before college demonstrating entrepreneurial mindset
